Create An Account In Sendgrid:

The screenshot shows the Twilio SendGrid dashboard interface. On the left is a sidebar with navigation links: Santhosh Kumar, Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area has a header with the text 'Send your first emails with Twilio SendGrid' and an illustration of two people running. Below this, a section titled 'Create a sender identity' provides instructions: 'Before sending email, you'll need to create a sender identity. There are two ways to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.' It includes a button 'Create a Single Sender' and a link 'Authenticate a domain instead'. To the right, it explains that the sender identity is the 'from' email address and shows an example: 'Your Business <jane.doe@your_business.com> to me'. At the bottom, a section titled 'Send your first email' includes a lock icon and the text 'Please create a sender identity before sending your first email.' The dashboard also shows a 'REPUTATION' bar at 100% and a 'VIEW ACCOUNT USAGE' link.
